Tru Inverness Electric Sit/Stand Workstations

Tru Inverness S

Tru Office Inverness S workstations feature squared off edges on genuine wood table tops and the same superior height adjustment range, motors and options as the Tru Inverness F.

Tru Inverness Electric Sit/Stand Workstations

Product info

- Tru Inverness offers a wide range of table top shapes and sizes.
- Inverness S tops are 1" thick; Inverness F tops are .9" thick and have a beveled edge.
- Desk tops are real wood in natural birch, beech, or stained beech.
- Electric height adjustment range is 24" - 50".
- Metal frame has rectangular legs and T-shaped feet without need for a crossbeam. Frame is laquered in dark grey (26) or chrome (90).
- Support beam is adjustable from 41.34" - 76" to accommodate desk tops from 47"- 80".
- Maximum load across desk top is 220 lbs.
- Easy assembly; just screw frame to top with enclosed hardware.
- Available accessories: current-free connection, programmable height control, extended height range, desk screens, modesty panels, cable management and CPU holders.
- 5-year warranty for defects from faulty design, materials or workmanship.
